Subject Red Lion Road/Budd Company, et. al. Sites -Exemption

Exemption 5-

Hi Kelly!

This message is a summary and follow up to our telephone conversation earlier today, May 19, 2005.

The Superfund's Site Assessment Program will not pursue assessment activities at the Red Lion Road/Budd Company site, at this time, due to the ongoing investigations by the TSCA PCB Program. Currently, the **Exemption 5-Deliberative Process** and any Superfund Program activities may interfere with the process. If the TSCA PCB Program requires any assistance from the Superfund Program with their investigations in the near future, please provide advance notice as practicable to ensure a timely continuation of activities.

Should you have any questions, please contact me via e-mail or at extension 2145. Thanks!

Char
